

Policy Landscape Report (stand-in)

This is a stand-in for the Exercise 1 backup report. The real version is a Gemini Deep Research run of the Exercise 1 brief (UK university AI position statements and net-zero commitments, and how institutions reconcile the two), exported to PDF and saved under this filename.

If you are reading this during a workshop: your own Deep Research run is the mission. This file only exists so the download link never breaks. Ask the facilitator if your run has failed and you need a report to work from.

Stand-in teaching material for the AI in the Workplace workshop, Cardiff University.
